

Product no **AS21 4683****Trx Tag | Thioredoxin 1 Fusion protein****Product information**

Immunogen	Trx recombinant protein
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	IgG1a
Purity	Affinity purified in PBS pH 7.4. Contains 0.02 % sodium azide. Contains 50% glycerol.
Format	Liquid
Quantity	50 µg
Storage	Store at -20 °C; make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Antibody is suitable for recognition of recognize N-terminal, C-terminal and internal Trx-tag in fusion proteins

Application information

Recommended dilution	1 : 500 - 1: 5000 (WB)
Expected apparent MW	depends upon MW of a fusion partner, Trx has MW of 12 kDa
Confirmed reactivity	Trx Fusion protein
Selected references	To be added when available, antibody available in October 2021.
